

We manage your clinical provider selection from shortlisting to kick off or project close.□

- Vendor selection: CROs, e-clinical providers, central labs, supplies and comparator drugs, etc.
- Stepwise process to define plan, verify plan and set vendor selection strategy to match your individual priorities and needs. Ongoing focus to explore optimization opportunities on a project level at start-up, and for your program and overall (demand management) .
- Project specifications review, vendor pre-selection/ranking (financial stability & relevant experience check), RFP process (proposal review, Q&A sessions, bid defense, proposal negotiations, refinements and contracting/closure (LOI, final contract, change orders/out of scope work).
- Ongoing vendor oversight throughout project duration, as needed and requested.
- We also provide program management, project oversight and feasibility evaluations.
